SOLO Group | PARIS

Dear customer,

The world has just come through a very difficult time; the COVID crisis has had a profound impact but we hope that these events will soon be behind us. We can either submit to this crisis, or use it to help us move forward into the future. Here at SOLO Group, it became clear to us that we needed to move more quickly and thoroughly in the three key areas of commitment, quality and service.

Demonstrated from the outset and strengthened every day, our commitment is to reduce our environmental footprint and improve our social impact. This is conveyed through the wear&care programme that organises, summarises and evaluates all our actions based around this commitment. Once again this year, we are implementing the most effective solutions to improve living and working conditions in countries where our products are manufactured, to use more and more organic materials or recycling, and limit our energy consumption throughout the value chain.

Quality refers to our products and ranges, offering various brands so that our end clients are guaranteed to find the products they need to reliably convey their message in the long term.

Service is what we bring to our customers and partners to make it easier for them to conduct their business. Most importantly, this means providing a clear, segmented offer that fully meets the demands of the market. The 5 customisable clothing brands within the SOLO Group meet these demands. But service also applies to the tools we provide: various digital tools, communication and marketing materials, and flawless logistics and customer service.

Dedicated, determined and professional, the SOLO Group teams work tirelessly to continue to bring you clothing and accessories that respect your values and help express your USP.

I would like to thank you for your loyalty and for placing your trust in us, without which we could not look forward to the future with such energy.

Alain Milgrom

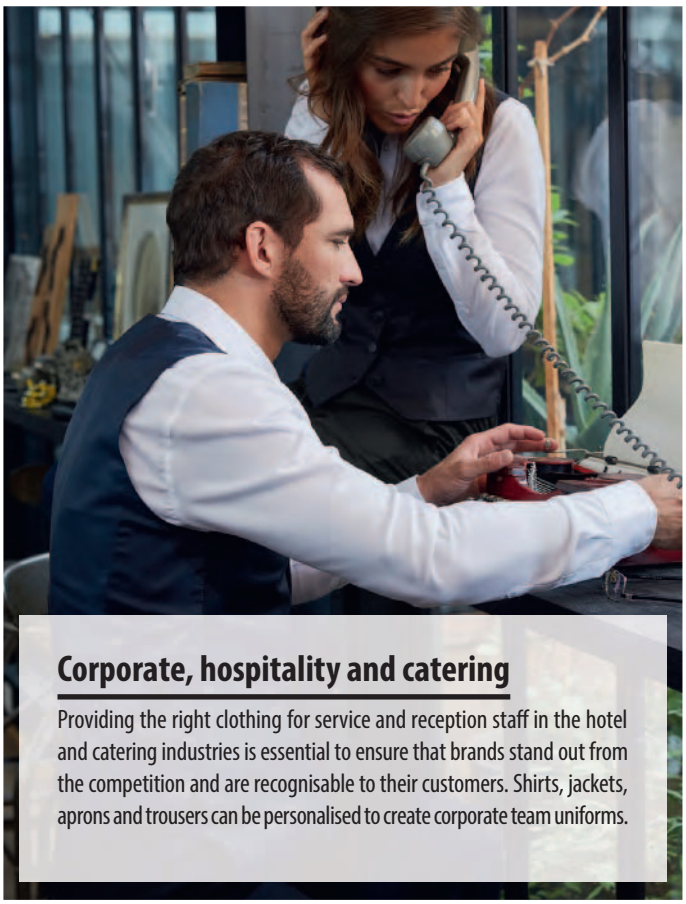
Markets

Publicity and promotions

Customised clothing is great for publicity and promotions provided it is well-fitting, good quality and suited to the needs of the people wearing it. T-shirts, sweatshirts, polo shirts and more: the SOLO Group fully meets all market needs.



Corporate, hospitality and catering

Providing the right clothing for service and reception staff in the hotel and catering industries is essential to ensure that brands stand out from the competition and are recognisable to their customers. Shirts, jackets, aprons and trousers can be personalised to create corporate team uniforms.

Workwear and PPE

Workwear trousers, polo shirts and jackets as well as T-shirts and sweatshirts can be personalised for staff working on sites or for independent businesses. Corporate equipment and technical or protective clothing to guarantee employees are comfortable.

Schools and universities

Echoing American college traditions, students all over the world proudly show off their allegiance to their college or university. Their favourite outfits include T-shirts, hoodies, baseball caps and jackets. Our ranges offer a wide selection of styles and colours.

Sports and leisure

For major sporting events where participants and supporters like to show their support by wearing their team's colours, or for sports clubs or groups looking for matching kits. But also for employees taking part in a race or a sporty teambuilding event.

Events and shows

For organisers of events, shows and concerts looking for textiles for all their branded products. T-shirts printed with a singer's image, souvenir tote bags for a show or baseball caps for staff.

Souvenirs & tourism

For gift shops in tourist offices, museums, theme parks or castles, personalised clothing is essential: branded or embroidered T-shirts, sweatshirts, baseball caps, tote bags or towels are the favourite souvenirs amongst visitors and tourists.

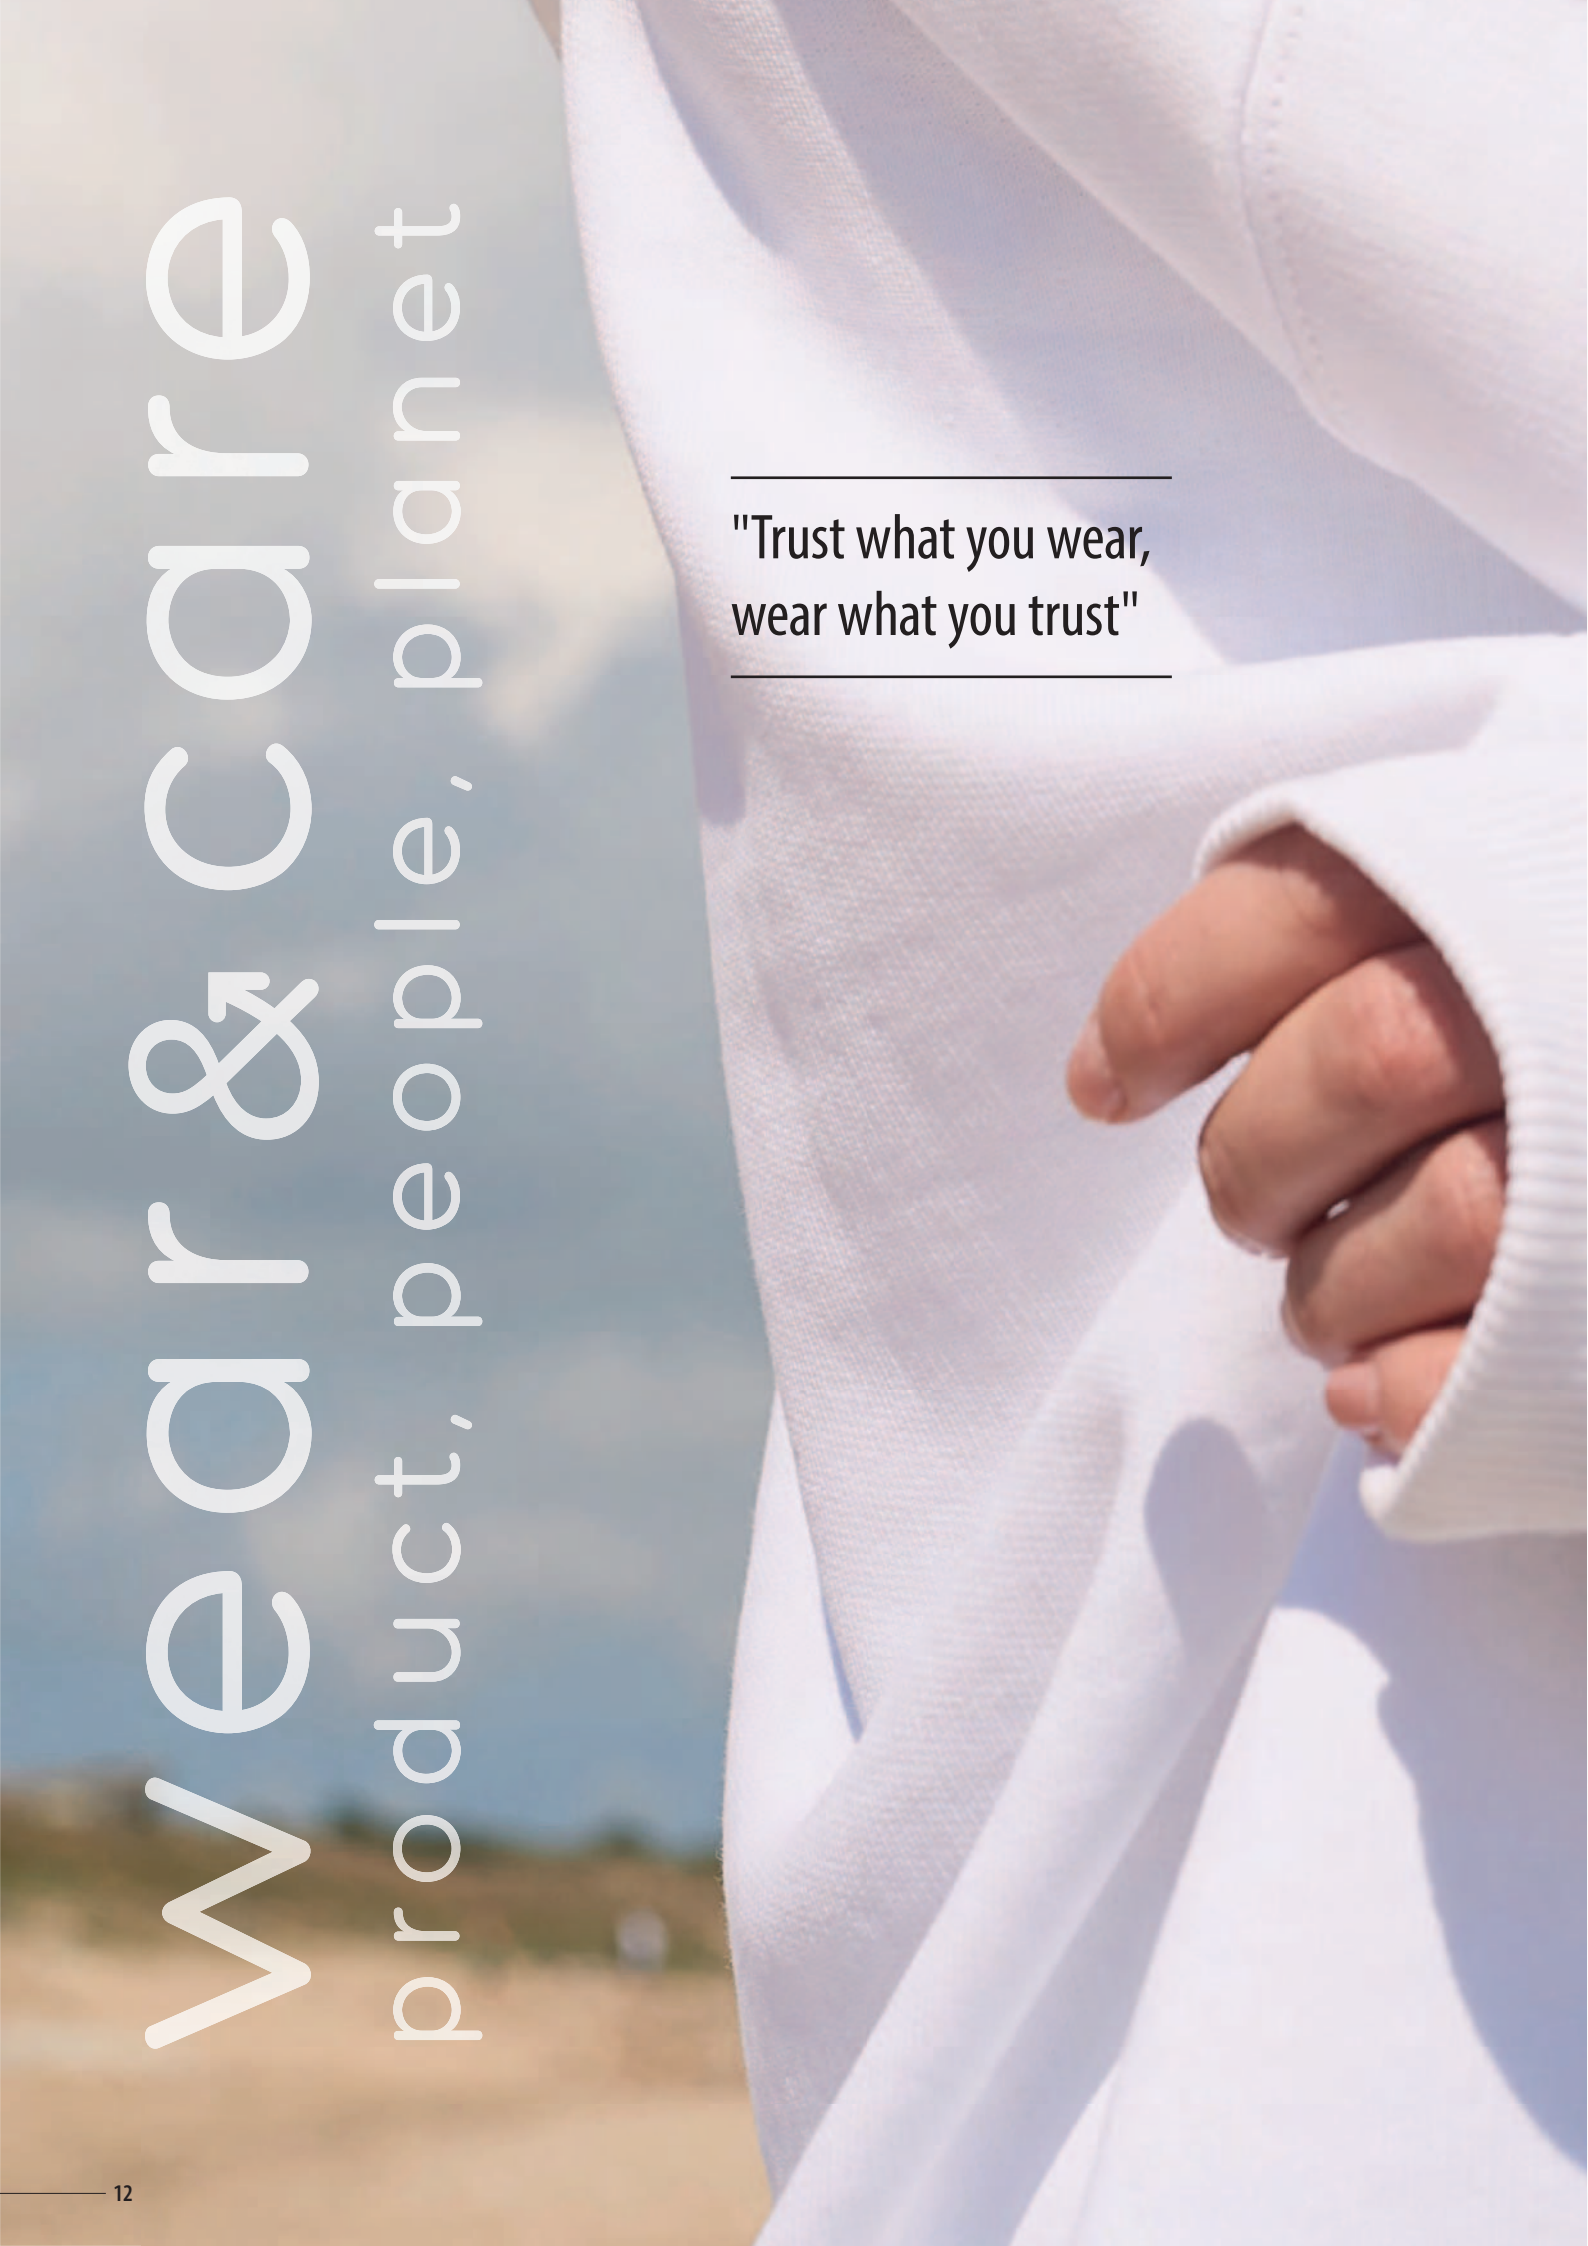
Designers, retailers & e-tailers

Ready-to-wear brands, designers or e-commerce platforms: express your creativity by customising garments to suit your needs through flocking, silkscreen printing, printing or embroidering.

wear&care

product, people, planet

"Trust what you wear,
wear what you trust"



product

The common aim of all the SOLO Group brands is to create clothing and accessories enabling everyone to express their USP. SOLO Group's commitment is to offer high quality clothing that meets everyone's values and expectations. Social responsibility is in our blood, and this commitment has dictated everything we have done over the past 30 years.

people

To achieve this, we believe that every single person who has contributed to manufacturing our products should be respected, valued and encouraged. This is why we are involved with several different organisations that guarantee working and employee conditions are adhered to. Independent audits guarantee the quality of our certifications.

As we believe that our action should not be limited to the people involved in manufacturing our products, we have been committed from the outset to supporting various charities aiming to improving overall health, women's living conditions and children's education.

planet

Conscious of the impact of our business on resources, we work to minimise its consequences and compensate accordingly. At each stage of the production chain, we seek and implement solutions to eliminate practices deemed excessively costly in terms of the environment, or find alternatives. We adhere to organisations or associations whose common aim is to constantly improve processes so that we leave future generations with a sound legacy.

Read more about all our certifications and initiatives at **sologroup-paris.com**

In 2022, SOLO Group continues with its environmental commitments by increasingly offering eco-friendly products. Our organic cotton and recycled fibres offer is now even more extensive. But what does that mean?

Organic cotton

There are several types of certification that prove a garment contains organic cotton. They all guarantee that the finished product comprises a minimum amount of organic cotton, by checking the flow of raw materials from the outset right through to the end product. Some garments are made from several materials (cotton and polyester, for example). This means that they will carry different certification, even if all the cotton they contain is organic. It is therefore important to check the certification as well as the detailed product composition to ascertain the true organic cotton content of the garment.

ORGANIC 100 CONTENT STANDARD

The OCS 100 Organic Content Standard applies to non-food products and guarantees that they comprise a minimum of 95% organic materials.
Example: SOL'S MILO, page 21, composed of 100% organic cotton.

ORGANIC BLENDED CONTENT STANDARD

The OCS BLENDED standard also applies to non-food products and guarantees that the end product contains from 5% to 95% organic cotton.
Example: SOL'S STELLAR, page 32, composed of 80% organic cotton and 20% recycled polyester.

GLOBAL ORGANIC TEXTILE STANDARD

The Global Organic Textile Standard (GOTS) accreditation is a guarantee of «organic» credentials for textiles, from harvesting the raw materials through to ecologically and socially responsible manufacturing.

The «GOTS – in conversion» accreditation means that the cotton is derived from fields which are currently being converted to organic agriculture. This transition usually takes 3 years, in order to fully eliminate all traces of pesticides.
Example: NEOBLU LORIS, page 27.

'organic – in conversion'

Recycled fibres

Recycling is a set of techniques that aims to recover and process waste before reintroducing it into the production cycle for other products. As well as reducing the volume of waste, recycling also reduces pollution and preserves natural resources by reusing previously extracted raw materials.

In terms of textile fibres, offcuts from materials which have not been used during manufacturing (cotton and polyester) are the leading source of recycling. Materials from outside the production process may also be used for conversion into textile fibres, such as plastic bottles which will become recycled polyester, for example. Finally, used garments may be used for conversion into new items of clothing.

RECYCLED POLYESTER

GLOBAL RECYCLED STANDARD

This international standard applies to labellised finished products containing between 50% and 100% recycled fibres (cotton or polyester, for example). Going beyond the quantity of recycled fibres, this certification assesses social and environmental practices as well as the chemical composition of the materials.
Example: SOL'S FACTOR, page 36.

RECYCLED POLYESTER

This symbol applies to all our models containing up to 50% recycled polyester.
Example: SOL'S CONDOR, page 30, contains 20% recycled polyester.

the shirt art

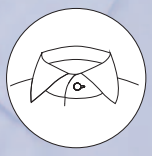
How to choose the right model?

COLLARS

Classic collar

The classic collar is the most common type and is slightly spread. This traditional model is a must-have, ideal in all circumstances and suitable for both business and casual styles.

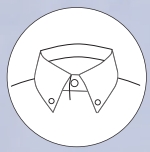
SOL'S BALTIMORE FIT 02922



Italian collar

Fairly similar to the French collar, it is characterised by a wider opening and slanted points, cut away from the perpendicular.

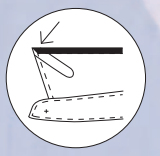
NEOBLU BLAISE MEN 03182



Button-down collar

The distinguishing feature of this collar resides in the buttons that fasten its points. They give a good support to the collar.

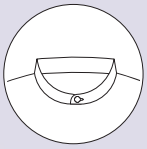
SOL'S BUSINESS MEN 00551



Stiffened collar

This option is available for some of our shirts. It is possible to offer a better support to the collar by adding stays on its points, which prevent it from deforming. Thus, the stiffened collar gives the shirt a chic and dressy style.

SOL'S BOSTON 16000
SOL'S BRISBANE 16010
SOL'S BEL-AIR 16090



The mandarin collar

The mandarin collar is a simple collar stand with rounded corners. It is easily recognised as it has no flap.

NEOBLU BART MEN 03792

PLACKETS

French placket

SOL'S ELITE 16030
SOL'S BRIGHTON 17000

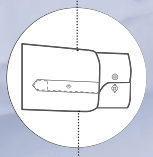
Conventional placket (American placket)

SOL'S BURMA MEN 02763

Concealed placket

NEOBLU BART MEN 03792

CUFFS



Bound slit

The bound slit is located at the wrist level. It is a pointed slit that gives a smart finish to the shirt.

SOL'S BUSINESS WOMEN 00554

Adjustable cuff

More comfortable

SOL'S BALTIMORE 16040

SOL'S BUSINESS MEN 00551

Our fabrics

Piqué cotton
Cotton piqué creates a stylish yet casual look.

Mercerised cotton jersey
Mercerised cotton showcases the strength and silky appearance of cotton, with a very soft feel.

Poplin
Light and tight weave, which is soft and comfortable to wear. Its bright effect makes the garment flowing.

Washed poplin
It offers a superior comfort and a pleasant touch.

Stretch poplin
Lightweight and comfortable to wear. The stretch material allows great freedom of movement.

Polycotton poplin
Made out of polyester and cotton fibres, it combines the strength of polyester with the comfort of cotton, offering a very easy care.

Herringbone
Herringbone fabric adds a refined touch to shirts, for a dash of originality. This fabric is soft and silky, making it easy to iron.

Oxford
Strong fabric with visible grain.
The Oxford construction combines value and tradition.

Denim
Renowned for its durability, denim lends itself to corporate wear as well as casual styling.
A timeless, must-have fabric in your wardrobe.

Twill
Weave characterised by diagonal lines. Soft and silky, it gives a smart finish and a very good resistance to garments. Moreover, twill fabric is easier to iron.

Cotton micro twill
Soft and comfortable fabric for easy-to-wear garments.

Cuts

How to chose the right cut for your shirt

REGULAR fit

Straight cut

It allows to feel more comfortable in one's shirt. Shirts featuring this comfortable cut have straight flanks that stay parallel and do not follow the natural chest shape.

SOL'S BRODY – p 151

And also...

SOL'S BURMA MEN – p 155
SOL'S BALTIMORE – p 144

ADJUSTED fit

Adjusted cut

A modern and the most universal cut, suited to the majority of men. This cut is slightly tighter around the chest so as to emphasise the silhouette without being too close-fitting. Ideal for the Corporate range.

SOL'S BALTIMORE FIT
p 144

SOL'S BRISTOL FIT
p 145

SOL'S BOSTON FIT
p 146

SOL'S BRISBANE FIT
p 147

SLIM fit

Slim fit

This shirt follows the chest shape. It is the cut to choose for standard silhouettes. This shirt is worn leaving the first collar button unfastened, in order to highlight the athletic chest.

FITTED cut

Fitted cut

Essential cut of the women's clost, it highlights the waist of women. Wider at the chest and hips, it remains comfortable and chic.

SOL'S BLAKE MEN – p 150

SOL'S EDEN – p 148

SOL'S EXCESS – p 149

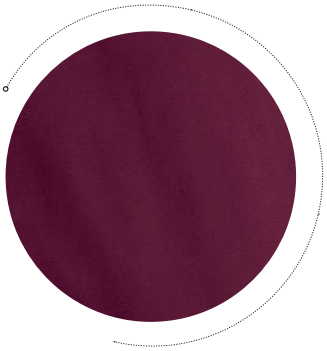
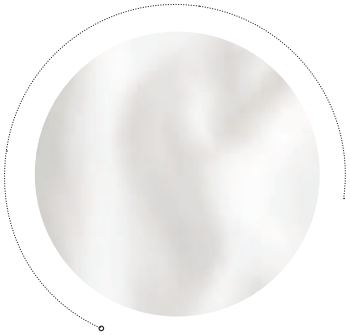
MATERIAL GUIDE

RINGSPUN



Our T-shirts are knitted with superior quality Ringspun yarns, offering garments a soft handfeel that makes them pleasant to wear and perfect to print. It is the European quality answer to American looser and less sophisticated weaves that use open-end cotton.

FIBRES



COMBED COTTON

With its long fibres, it is so called because the yarn is combed to remove impurities and shorter fibres, making the material smoother and stronger. Perfect for digital printing.

ELASTANE

A very stretchy yarn that is mixed with cotton to provide greater elasticity and comfort.

VISCOSE

Viscose is a fibre obtained from plant cellulose. Visually very similar to silk, this material is much stronger. It is often found in sweaters or suits.

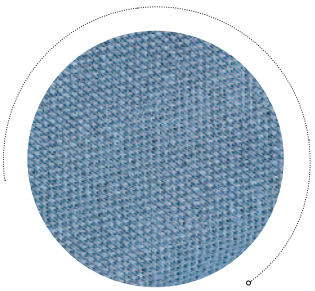
KNITS

JERSEY

This basic knitting makes the material soft, strong and supple with a smooth surface ideal for all customisation techniques.

MILANO

Milano fabric is a soft interlock jersey with excellent shape retention. The face has the appearance of jersey, whilst the reverse is ribbed. It is ideal for dresses and skirts.

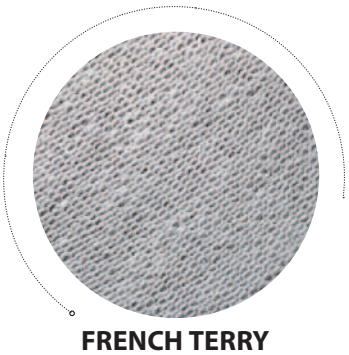


PIQUÉ

Very comfortable fabric with a honeycomb pattern, mainly used for polo shirts. Thanks to its combed cotton, our piqué has a particularly smooth surface perfect for all customisation techniques.

POLAR FLEECE

Polyester knit, thoroughly brushed on both sides, which resembles fleece. All our polar fleeces have an anti-pilling treatment, which prevents the formation of pills caused by friction.



FRENCH TERRY

French Terry has one flat side and the other with large loops. When the loops are in contact with the skin, they provide a better absorption of humidity and a greater comfort.

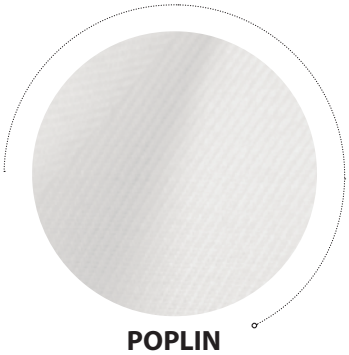
FLEECE

Heavy knit with polyester and cotton. Its inside surface is brushed to make it warm and soft.

TEXTILE ALLOWANCE

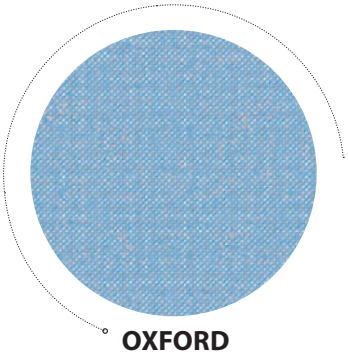
For promotional wear, European standards are + or – 5% for weight and size.

WEAVES



POPLIN

Poplin is a weave with a fine, tight rib. This supple fabric is very comfortable. It is mostly used for making shirts.



OXFORD

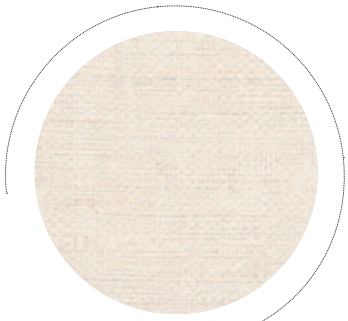
Soft, very strong fabric used for shirts. Coloured yarns are used for the warp while white yarns make the weft, emphasizing the plaiting effect.

TWILL

Cotton or cotton blend serge fabric with thin, diagonal ribs.

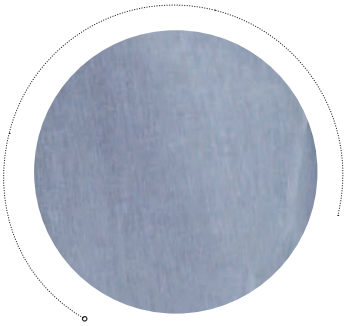
DENIM

High-quality, tightly woven fabric. Denim usually comprises a blue warp and a cream or white weft. Its twill weave forming diagonal lines makes it visually recognisable.



CANVAS

Also known as cretonne, this is a hardwearing fabric with a tight weave. Usually made from cotton yarns with a square structure, it is perfect for making bags.



SOFTSHELL

Material consisting of three layers: the outer layer is neoprene-based with added elastane, the inside layer is a micro fleece, with a technical layer in-between. The material is insulated for warmth, water-resistant, breathable and wind-proof.
